

Cheap 3x3 White Plastic Hydro Planting Nursery Farm Microgreens Ebb and Flow Trays

Customized Hydroponic Tray

* Normally, different projects different requirements, there are no general models,

most of our orders are customized type.

* You can custom the size, shape, color, plastic material etc.

* We could provide free design service, just give us your ideas or draft drawings.

* We also developed some nonstandard hydroponic trays, please feel free to contact [china ebb flow tray manufacturers](#)

Hydroponic Tray Advantages

- Various sizes are available, and support customization
- The special rib design makes hydroponic tray load better and stronger
- Virgin HIPS and ABS plastic material, more durable than trays made from recycled material
- Multiple drainage positions provides more setting choice
- Rounded corners and smooth inner wall, easy to flow and clean

Hydroponic Tray Manufacturing

[china 3x3 hydro tray wholesale](#) hydroponic trays are manufactured from Thermoplastic ABS or HIPS sheet, by vacuum forming processing.

From 3D drawing design, Mold carving, Plastic sheet extrusion, Vacuum Forming, Trimming, Drilling, to Packing, all processes are produced in our own factory. So, we are price terminator (the most competitive price in China).
