

Custom Infinity Long White Black Plant Growing Vertical Benches ABS Plastic Rolling Trays Flood Tray for Hydroponics

Infinity Tray With Lid

Infinity Series trays are designed specialized for ebb and flow rolling bench system and urban vertical farming system, a simple grow tray maximize your planting and installation efficiency, allowing the grower to maximize utilize every inch of the grow space.

Infinity Trays are composed of Head tray + Mid tray + End tray, which designed to easily connect multiple trays together, end-to-end. There are male and female end designs, the female end underlap nests under the male overlap for a snug fit when connecting trays. Use suitable ABS adhesive to attach the male end overlap firmly on top of the female end.

The lids are fit on the tray directly, also made from rigid ABS plastic material, so it can hold the plants well. and its planting holes shape, size, depth, QTY etc. all can be customized based on clients different planting projects. **We can provide free design service!!!**

* Adhesive Selection

- a. Purchase existing ABS glue in local market
- b. Make it yourself, dissolve ABS particles in acetone, and get glue

Note: No matter which one you choose, it is recommended to conduct adhesive and water leakage tests before gluing in batches
