

Custom Large Sloped Self Drain 4x8 ABS Plastic Greenhouse Shelf Trays For Growing Plants

Customized Hydroponic Tray

* Normally, different projects different requirements, there are no general models,

most of our orders are customized type.

* You can custom the size, shape, color, plastic material etc.

* We could provide free design service, just give us your ideas or draft drawings.

* We also developed some nonstandard hydroponic trays, please feel free to contact [china trays for growing plants manufacturers](#)

Hydroponic Tray Advantages

- Various sizes are available, and support customization
- The special rib design makes hydroponic tray load better and stronger
- Virgin HIPS and ABS plastic material, more durable than trays made from recycled material
- Multiple drainage positions provides more setting choice
- Rounded corners and smooth inner wall, easy to flow and clean

Hydroponic Tray Manufacturing

[china greenhouse shelf trays wholesale](#) hydroponic trays are manufactured from Thermoplastic ABS or HIPS sheet, by vacuum forming processing.

From 3D drawing design, Mold carving, Plastic sheet extrusion, Vacuum Forming, Trimming, Drilling, to Packing, all processes are produced in our own factory. So, we are price terminator (the most competitive price in China).
