

Customizable Commercial Greenhouse Hydroponic Grow 4x4 4x8 5x12 Deep Plastic Rolling Flood Tables With Cover

Hydroponic Tray with Lid

* Normally, different projects different requirements, there are no general models, most of our orders are customized type.

* You can custom the size, shape, color, plastic material etc.

* We could provide free design service, just give us your ideas or draft drawings.

* We developed some hydroponic trays with lids, please feel free to contact with [china hydroponic flood table manufacturers](#)

Hydroponic Tray Advantages

-
- Various sizes are available, and support customization
 - The special rib design makes hydroponic tray load better and stronger
 - Virgin HIPS and ABS plastic material, more durable than trays made from recycled material
 - Multiple drainage positions provides more setting choice
 - Rounded corners and smooth inner wall, easy to flow and clean

Hydroponic Tray Manufacturing

Yuyi Hydroponic trays are manufactured from Thermoplastic ABS or HIPS sheet, by vacuum forming processing.

From 3D drawing design, Mold carving, Plastic sheet extrusion, Vacuum Forming, Trimming, Drilling, to Packing, all processes are produced in our own factory. So, we are price terminator (the most competitive price in China).
